Disinfectant Services

AscentCleaning provides quality assurance preventative cleaning through innovative techniques. We understand that during these unprecedented times, it's pivotal to maintain a clean and sanitary facility. We have adopted extensive methods, allowing our team of specialists to disinfect surfaces and facilities of viruses and pathogens.

Our Preventive Measures:

In compliance with the Centers for Disease Control (CDC) guidelines, our team complies as follows:

- Maintain the use of required personal protective equipment (PPE) for the duration of all cleaning sessions. Such includes face covering, gloves, and coveralls when necessary.
- Comply with daily temperature checks.
- Maintain safe fiscal distance between other individuals while on site.
- Utilize Environmental Protection Agency recommended (EPA) approved chemicals.
- Coordinate and implement systematic cleaning schedules around off-peak hours while adhering to all state and local guidelines to better accommodate an effective cleaning program.

Electrostatic Fogging Services

Experience a new level of cleanliness with electrostatic spraying! This patented technology sanitizing agent works to disinfect surfaces and kills viruses such as SARS-Cov-2 in 30 seconds and Norovirus in 45 seconds.

It is critical to ensure individuals visiting your facility feel reassured you are taking every step necessary. AscentCleaning Corp electrostatic spraying gives you the ability to rapidly coat surfaces with comprehensive coverage.
